Your TFSA + RRSP Multi-Brokerage Tracker Is Ready.

Every TFSA and RRSP you own, at up to 8 institutions, in one Google Sheet · TFSA room · RRSP room · net worth · dividends

Your TFSA room and your RRSP deduction limit belong to YOU, not to each account. If you have TFSAs or RRSPs at more than one bank or brokerage, none of them knows what is in the others. This tracker adds everything up: your TFSA room left this year, your RRSP room for the March deadline, your combined net worth, every brokerage side by side, and your holdings at live prices. It comes with sample data so you can see it working first.

(The /copy at the end of the link makes Google ask you to save your own copy. If clicking does not work, copy the link into your browser.)

GET STARTED: 6 STEPS

1 Make Your Own Copy
Click the link above, then click Make a copy. Rename it, for example "TFSA + RRSP Tracker 2026 – Your Name". Always work in YOUR copy, never the original.

2 Clear the Sample Data
Open the MapleSheet menu at the top of the sheet and click Clear Sample Data. Your formulas, dropdowns and settings stay in place. (First time? Google asks you to authorize the menu: click Continue and Allow.)

3 Fill In Settings & Goals
Only edit the amber cells: your name, Active Year, birth year and up to 8 institutions. Then your TFSA room on January 1 (CRA My Account) and your RRSP deduction limit and unused contributions (your Notice of Assessment).

4 Log Your Contributions
In the Transaction Log, one row per transaction: Date, Institution, Account (TFSA or RRSP), Type and the amount in column L. Pick the Account on EVERY row: it decides which room the money counts against.

5 Log Your Investments
For each purchase: Type = Buy, the ticker (TSE:XEQT for Canadian, KO or NYSE:KO for US), shares in column I and price in column J. US stock? Pick USD in the Currency column. Column O tells you if anything is missing.

6 Check Your Dashboards
The Main Dashboard shows your TFSA, RRSP and combined net worth, each brokerage, and how much TFSA and RRSP room you have left. Read the TFSA & RRSP CRA Rules tab once: the red cards are the mistakes that cost money.
