Your Ultimate Multi-Brokerage Tracker Is Ready.

All 6 Canadian accounts at up to 8 brokerages, in one Google Sheet · TFSA, RRSP, Spousal RRSP, FHSA, RESP, Margin & Cash · every room and limit · spousal attribution · home purchase · CESG · margin loan · pooled ACB · tax summary

Your money rarely sits in one place. Your TFSA is at one brokerage, your RRSP at another, the Spousal RRSP and your FHSA somewhere else, the kids' RESP at a fourth, and your margin account borrows against it all. Each account follows its own CRA rules, and no brokerage sees the others. This tracker puts all of it in one sheet: one TFSA room, ONE RRSP room shared by your RRSP and the Spousal RRSP, your FHSA room and closing year, the 3-year spousal attribution rule, your tax-free down payment (FHSA + Home Buyers' Plan), each child's $50,000 limit and CESG, your margin loan and loan-to-value, one pooled ACB for your taxable accounts, and what everything is worth today at live prices. It comes with sample data so you can see it working first.

(The /copy at the end of the link makes Google ask you to save your own copy. If clicking does not work, copy the link into your browser.)

GET STARTED: 6 STEPS

1 — Make Your Own Copy
Click the link above, then click Make a copy. Rename it, for example "My Accounts 2026". Always work in YOUR copy, never the original.

2 — Clear the Sample Data
Open the MapleSheet menu at the top of the sheet and click Clear Sample Data. Your formulas, dropdowns and settings stay in place. (First time? Google asks you to authorize the menu: click Continue and Allow.)

3 — Fill In Settings & Goals
Only edit the amber cells: your name, Active Year, up to 8 brokerages with each margin rate and TFSA collateral rate, your TFSA room (CRA My Account), your RRSP deduction limit (Notice of Assessment), each child's RESP details, your marginal tax rate, your spouse's name (Spousal RRSP) and your FHSA room and opening year (CRA My Account).

4 — Log Your Transactions
In the Transaction Log, one row per transaction: Date, Institution, Account (TFSA, RRSP, Spousal RRSP, FHSA, RESP, Margin or Cash), Child (RESP rows only), Type and the amount. Money into a registered account is a Contribution; into a Margin or Cash account it is a Deposit.

5 — Log Your Investments
For each purchase: Type = Buy, the ticker (TSE:XEQT for Canadian, NYSE:JNJ for US), shares and price. Log each monthly margin interest charge as Margin Interest. Column Q flags anything to double-check.

6 — Watch It Add Up
The Ultimate Dashboard shows all 6 accounts and your total, every brokerage side by side, every room and limit, the spousal attribution status, your tax-free down payment and each child's CESG. At tax time, open the Tax Summary.
