Your FHSA Tracker Is Ready.

Your First Home Savings Account in one Google Sheet · 8 automated tabs · contribution room · Line 20805 · down payment progress

The FHSA is the only Canadian account with all three tax breaks: contributions are deductible like an RRSP, growth is tax-free like a TFSA, and a qualifying withdrawal for your first home is tax-free and never has to be paid back. The tracker runs entirely in Google Sheets and comes with 8 sample transactions so you can see it working first.

GET STARTED: 6 STEPS

1. **Make Your Own Copy**
   Click the link above, then click “Make a copy.” Rename it “FHSA Tracker 2026 — [Your Name]” and save it to your Google Drive. Always work from YOUR copy, never the original.

2. **Clear the Sample Data**
   Open the Transaction Log, click cell A4, press Ctrl+Shift+End (Windows) or Cmd+Shift+End (Mac), then press the Delete key only. Never right-click → Delete rows. The Clear Sample Data Guide PDF walks you through it.

3. **Update Settings & Goals**
   Fill in the amber cells: your name, the Active Year, your province code (BC, ON…), the year you opened your FHSA, the annual limit ($8,000), any unused carry-forward room, your target purchase year and your withdrawal goal.

4. **Enter Your First Contribution**
   In the Transaction Log: Account = FHSA, Type = Contribution, the amount in column K and the real contribution date.

5. **Enter Your Investments**
   For each purchase: Type = Buy, the ticker with the TSE: prefix (TSE:XEQT), shares in column H and price in column I. The FHSA Portfolio fills in with live prices.

6. **Check Your Dashboards**
   The Main Dashboard shows your value, room and down payment progress. The Tax Dashboard estimates your Line 20805 refund.
