Your Margin & Cash Multi-Brokerage Tracker Is Ready.

Every taxable Margin and Cash account, at up to 8 brokerages, in one Google Sheet · pooled ACB · gains on every sale · margin loan and interest · tax summary

When you invest at more than one brokerage, each one only sees its own shares, but the CRA averages the cost of identical shares across ALL your accounts. This tracker does that pooled math for you: the gain or loss on every sale, superficial loss warnings, your margin loan and interest at each broker, the break-even yield your holdings need, and the amounts for your tax return. It comes with sample data so you can see it working first.

YOUR TEMPLATE LINK: click to open "Make a copy"

https://docs.google.com/spreadsheets/d/1RpKf9hveoAwjKRrP5i00mIAi3wNNvVh_oKFbht-9prw/copy

(The /copy at the end of the link makes Google ask you to save your own copy. If clicking does not work, copy the link into your browser.)

GET STARTED: 6 STEPS

1 Make Your Own Copy
Click the link above, then click Make a copy. Rename it, for example "Margin Multi-Brokerage Tracker 2026 – Your Name". Always work in YOUR copy, never the original.

2 Clear the Sample Data
Open the MapleSheet menu at the top of the sheet and click Clear Sample Data. Your formulas, dropdowns and settings stay in place. (First time? Google asks you to authorize the menu: click Continue and Allow.)

3 Fill In Settings & Goals
Only edit the amber cells: your name, Active Year, marginal tax rate, and up to 8 brokerages with the margin rate each one charges you (leave the rate blank for a cash-only account).

4 Log What You Already Own
For each stock or ETF you hold today, add one Buy row dated the day you start, with column L (Amt Original) = your current ACB for it. Same stock at two brokerages? One row at each.

5 Log Every New Transaction
In the Transaction Log, in date order: Date, Institution, Account (Margin or Cash), Type, ticker with its exchange prefix (TSE:RY, NASDAQ:AAPL), shares and price. Log each monthly margin interest charge as Type = Margin Interest.

6 Check Your Dashboards
The Main Dashboard shows your loan, loan-to-value and break-even yield; the Tax Summary gives the amounts for Lines 12000, 12100, 12700 and 22100. Read the Tax & Margin Rules tab once: the red cards are the costly mistakes.

WHAT IS INSIDE: 10 TABS

Tab	What it does
Start Here	Quick start, every transaction type, and the most important things to know.
Main Dashboard	Every brokerage side by side (market value, ACB, gain/loss, cash or loan, equity, income, interest), leverage and break-even, tax snapshot, goals and charts.
Transaction Log	The only tab you type into besides Settings. Shows the gain or loss on every sale and flags anything to check.
Portfolio	Every holding across all brokerages with its pooled ACB, live price, market value and gains.
Institution Dashboard	Side-by-side comparison of up to 8 brokerages, including margin rate and T5008 proceeds.

Template Link

MapleSheet Co. · Margin & Cash Multi-Brokerage Tracker v1.1 · CA$9.99

Tab	What it does
Margin Interest	Loan and loan-to-value per brokerage, monthly interest vs income, break-even and income yield.
Dividend Tracker	Monthly dividends vs your goal, per-ticker summary and every dividend and DRIP.
Tax Summary	T1 line amounts, a T5008 check per brokerage and every sale of the year for Schedule 3.
Tax & Margin Rules	Colour-coded rule cards: red = avoid, amber = limit or deadline, green = benefit.
Settings & Goals	Your details, brokerages and margin rates, tax numbers, goals and year-end checklists.

Included with your purchase: this Template Link, the User Guide PDF (every tab and column explained) and the Tax & Margin Rules PDF (capital gains, pooled ACB, superficial losses and margin interest in plain English). For educational purposes only. Not financial or tax advice. Rules summarized for 2026 (federal) from canada.ca and Income Tax Folio S3-F6-C1. Questions: hello@maplesheet.ca
