Your TFSA + Margin Tracker Is Ready.

The only Canadian tracker that links your TFSA and Margin accounts

YOUR TEMPLATE LINK — click to open “Make a Copy”

https://docs.google.com/spreadsheets/d/1RF7cjx22nEdT5e-By8TuVO-GqzlwQ9UbWbiEXesNz2I/copy

(The /copy at the end prompts Google to make a copy automatically)

GET STARTED — 6 STEPS

1 — Make Your Own Copy

Google Sheets opens with a “Make a copy” dialog. Click it. Rename to “TFSA + Margin Tracker 2026 — [Your Name]”. Saves permanently to your Google Drive. Always work from YOUR copy.

2 — Clear the Sample Data

Open Transaction Log → click A4 → Ctrl+Shift+End (Windows) or Cmd+Shift+End (Mac) → press Delete key ONLY. Never right-click and delete rows — this breaks ACB formulas. See the Clear Sample Data Guide PDF for the full 8-step walkthrough.

3 — Update Settings & Goals

Open Settings & Goals. Fill the amber cells: Name · Active Year · TFSA Annual Limit (B9) · Unused Room (B10) · Province code e.g. BC (B6) · Margin Rate e.g. 0.07 (B14) · Margin Balance Borrowed (B15) · Collateral Rate 0.70 (B17, confirm with your broker).

4 — Enter Your First Transactions

Go to Transaction Log. Enter your TFSA and Margin transactions starting at row 4. Account = TFSA or Margin. All 11 tabs update automatically — portfolio, dashboard, charts, tax summary.

5 — Log Margin Interest Monthly

When your broker charges interest: Account = Margin · Type = Margin Interest · Amount in Column K. The Tax Dashboard calculates your annual Line 22100 deduction automatically.

6 — Set Your Province

Enter your 2-letter province code in Settings B6 (AB · BC · MB · NB · NL · NS · NT · NU · ON · PE · QC · SK · YT). The Tax Dashboard shows your federal + provincial combined marginal rates instantly.

WHAT'S INSIDE — 11 FULLY AUTOMATED TABS

Tab	What It Does	You Type?
Start Here	Setup · clear sample data · column guide · rules · FAQ · ticker format	Read only
Transaction Log	The ONLY tab you type into · TFSA + Margin · all types including Margin Interest	YES

Settings & Goals	TFSA limits · margin rate · collateral rate · province · goals · 12 CRA rules	Amber cells only
ChartData	Hidden helper tab for Dashboard charts — do not edit	Never

TFSA AS COLLATERAL

At Wealthsimple, your TFSA portfolio can serve as collateral for your non-registered Margin account, unlocking additional borrowing power. Default collateral rate is 70% of TFSA market value. Enter your rate in Settings & Goals → B17. The Dashboard shows your additional borrowing power and available margin remaining automatically.

The template includes 12 sample transactions (4 TFSA + 8 Margin).
Open the Clear Sample Data Guide and follow 8 steps to safely erase them before entering your own data.
