■ Welcome!

Your Canadian RRSP Multi-Brokerage Tracker

v1.0 · MapleSheet Co.

STEP 1 — Click the link below

This is your template link. Clicking it opens Google Sheets and asks you to **Make a copy** of the tracker to your own Google Drive. You never edit the master — you always work from your own personal copy.

https://docs.google.com/spreadsheets/d/REPLACE-ME-WITH-YOUR-RRSP-SHEET-ID/copy

Tip: If clicking does not work in your PDF viewer, copy the link above and paste it into your browser address bar.

STEP 2 — Make a copy

You will see a dialog titled **Copy document**. Click the blue **Make a copy** button. Google will create a copy of the tracker in your Google Drive.

STEP 3 — Rename and start

Rename the file to something meaningful, for example: **RRSP Multi-Brokerage Tracker 2026 — Your Name**. Then open the **User Guide PDF** included in your download for a full walkthrough of every tab and the ■ MapleSheet menu.
