Your RESP Multi-Brokerage Tracker Is Ready.

Every RESP your family holds, at up to 8 institutions, for up to 4 children, in one Google Sheet · $50,000 limit per child · CESG still available · education goal

RESP limits belong to each child, not to each account. If your children have RESPs at more than one bank or brokerage, none of them knows what is in the others. This tracker adds them all up for each child: contributions against the $50,000 lifetime limit, CESG received and still available, how much more to contribute before December 31 for the full grant, and your holdings at live prices. It comes with sample data so you can see it working first.

YOUR TEMPLATE LINK: click to open "Make a copy"

https://docs.google.com/spreadsheets/d/10qfSKMsDM4bra3EBzD2TqgN_4aEdz8ev0ezBuFlbNjo/copy

(The /copy at the end of the link makes Google ask you to save your own copy. If clicking does not work, copy the link into your browser.)

GET STARTED: 6 STEPS

1 Make Your Own Copy
Click the link above, then click Make a copy. Rename it, for example "RESP Multi-Brokerage Tracker 2026 – Your Name". Always work in YOUR copy, never the original.

2 Clear the Sample Data
Open the MapleSheet menu at the top of the sheet and click Clear Sample Data. Your formulas, dropdowns and settings stay in place. (First time? Google asks you to authorize the menu: click Continue and Allow.)

3 Fill In Settings & Goals
Only edit the amber cells: your name, Active Year, the year you opened your first RESP, and up to 8 institutions. Then, for each child (up to 4): name, birth year, contributions made before this year and CESG received before this year, from your RESP statements.

4 Log Your Contributions and Grants
In the Transaction Log, one row per transaction: Date, Institution, Child, Type (Contribution, CESG, CLB) and the amount in column L (Amt Original). Always pick the Child, so each dollar counts for the right child.

5 Log Your Investments
For each purchase: Type = Buy, the ticker with its exchange prefix (TSE:XEQT, TSE:VGRO), shares in column I and price in column J. Moving an RESP to another institution? Use Transfer Out and Transfer In: a direct transfer is not a new contribution.

6 Check Your Dashboards
The Main Dashboard shows each child's lifetime contributions, the CESG still available this year and how much more to contribute to get it. Read the RESP CRA Rules tab once: the red cards are the mistakes that cost money.

WHAT IS INSIDE: 8 TABS

Tab	What it does
Start Here	Quick start and the most important things to know.
Main Dashboard	Market value, cost basis, gain/loss, contributions and grants for every institution side by side, plus a column for each child (limit, CESG, what to contribute), your RESP timeline and education goal.
Transaction Log	The only tab you type into besides Settings. Every other tab updates from it.
RESP Portfolio	Combined holdings across all institutions: shares, average cost, live prices, market value and gain/loss.
Institution Dashboard	Side-by-side comparison of up to 8 institutions, with the per-child block underneath.

MapleSheet Co. · RESP Multi-Brokerage Tracker v1.1 · CA$9.99

Tab	What it does
Dividend Tracker	Monthly dividends vs your goal, per-ticker summary and every dividend and DRIP.
RESP CRA Rules	Colour-coded rule cards: red = avoid, amber = limit or deadline, green = benefit.
Settings & Goals	Your details, institutions, children, RESP numbers, goals and year-end checklists.

Included with your purchase: this Template Link, the User Guide PDF (every tab and column explained) and the RESP Government Rules PDF (RESP and grant rules in plain English). For educational purposes only. Not financial or tax advice. Rules summarized for 2026 from canada.ca (Registered Education Savings Plans). Always confirm your own numbers with your RESP provider.
