GET STARTED: 5 STEPS

1 Make Your Own Copy
Click the link above, then click “Make a copy.” Rename it “Margin Tracker 2026 — [Your Name]” and save it to your Google Drive. Always work from YOUR copy.

2 Clear the Sample Data
Open the Transaction Log, click cell A4, press Ctrl+Shift+End (Windows) or Cmd+Shift+End (Mac), then press the Delete key only. Never right-click → Delete rows. The Clear Sample Data Guide PDF walks you through it.

3 Update Settings & Goals
Fill in the amber cells: your name, the Active Year, your annual margin rate from your broker (enter 0.07 for 7%), the balance you have borrowed, and your annual goals.

4 Enter Your First Transaction
In the Transaction Log, start at row 4 with Account = Margin and Type = Contribution (a cash deposit) or Buy. All 9 tabs update automatically.

5 Log Margin Interest Monthly
When your broker charges interest, add a row with Account = Margin, Type = Margin Interest and the amount in column K. The Margin Interest tab and Tax Dashboard update on their own.
